And Others!

Who:	**Student and Faculty**
Where:	**MEEM 120**
When:	**Saturday, Feburary 21, 2004**
	From 1:00 to 3:00 pm

Want to write your article in the professional format for publication? This seminar will get your feet wet and lay the foundation in the ways and means of type setting with LaTeX.

- FREE Seminar / Workshop on using LaTeX.

- We will be covering how to setup documents, write documents so they can be easily updated / changed, and then tweaking them to your perfection.

- Hands on experience in a computer lab for people to try the skill as it is learned. Computers will be on a first come first serve basis. Everyone is welcome to stay and learn but may not get a computer.

- Prior experience with the unix command line is recommended, but not required. We will be using *TeX (Web2C 7.2) 3.14159* with the *gvim* editor.
