- Intro to Linux Command Line
- Digital Rights Management
- Linux on tablet computers
- Desktop effects
- PFsense
- Basic linux
- Intro to Ubuntu
- Photoshop running with Wine
- Open Source Games
- Schemeing on the command line (scsh)
- Installing from a flash drive (debootstrap)
- Bash and Fortran
- Installing Linux on Playstation 3
- Installing Linux on Nintendo Wii
- History of Linux
- Homebrew PVR (MythTV)
- Linux Applications/Productivity Apps
- Firewall - Basic iptables (commandline)
- Internet Security
- Vim
- IPSEC
- Linux on the Desktop (Project Utopia)
- Perl
- LaTeX
- Webservers, PHP and MySQL
- Basic Samba Administration
- Ubuntu vs. Windows 7 : A comparison
- Computer Games in Wine
- NUXI's Security Theatre
- SSH Tips and Tricks
- Computer/Network Security(including wireless)
- Web applications/Scripting
- *Your brilliant suggestion ([http://lug.mtu.edu/mediawiki/index.php?title=Presentation\\_sign-up&action=edit](http://lug.mtu.edu/mediawiki/index.php?title=Presentation_sign-up&action=edit))*

## Possible Event Ideas

- Bring in professors to talk about how they use Linux in research or in industry
- Bring in other orgs like AITP and PSG or Enterprises that can talk/show off how they've used Linux
- Offer things like programming help

## Advertising

- Flyers in each building/labs where allowed
- Table tents in each cafeteria
- Email out to lug-l, pfrc-l, various classes of cs, cnsa, cpe, ee, other computer-related majors
- Visit classes and give a brief overview. Use it as an event to gain members
- EDS is free
- Film board advertising is cheap
