

# Lead discussions

From MTU LUG wiki

Each week, after the business part of the meeting, we have a short discussion on a topic general interest. The next discussion hasn't been scheduled yet.

If you want to volunteer, just sign up for an open date in the #Discussion Schedule section. If there is a topic that you would like to know more about, add it to the list of #Topics for Discussions. If there are discussions that you willing to lead but need motivation, add those to the list as well (and name your price).

## Contents

- 1 Topics for Discussions
- 2 Discussion Schedule
  - 2.1 2008/01/31
  - 2.2 2008/2/7
  - 2.3 2008/2/14
  - 2.4 2008/2/21
  - 2.5 2008/2/28
  - 2.6 2008/3/6

## Topics for Discussions

- Custom Kernel building Dark-Fx (What date do we want to set for this?)

## Discussion Schedule

### 2008/01/31

#### Iptables discussion topics

- Basic allow/deny rules
- IP forwarding (NAT)
- Port Forwarding/Redirection

### 2008/2/7

### 2008/2/14

**History of Beowulf** This is just a show and tell on the first Beowulf machines built by Thomas Sterling and Don Becker at NASA's Goddard Space Flight Center. I will try to cover:

- Why it Happened
- What a Beowulf cluster is and what it is not
- What we can we do now

Merk 22:37, 4 February 2008 (EST)

### 2008/2/21

### 2008/2/28

### 2008/3/6

- Backup strategies and tools for personal use (requested by Merk 10:12, 7 February 2008 (EST))
