Coding

- If you write code like this, I don't only suggest, but I give you permission to go home and shoot yourself.
- Pops is a beautiful object oriented programmer.
- I had it right. Well damn you all!
- That's what we want; full, bushy trees.
- When we get to the trees, then we go down.
- JAVA has a priority queue, it's called PriorityQueue.
- One of the key things is knowing where the insert position is.
- Why don't I like that? Because it would totally work.
- Oh! Oh! I understand... Your just not giving me a complete answer
- Why don't I like that, because it would totaly work.
- I had it right!... well damn you all!
- We would have to kill you after you wrote it.

Conversations

- [reply to being asked why he lived in the university's student apartments]
I do not need a house, only a room with a computer.
- What happened?!?!
I think you forgot to plug it in. (student refering to the overhead projector)
- [students talking in the background]
Who has that deep loud voice? - It's a real nice voice. (seductively)
- What is the height of a complete tree given n?
three?
No! Log n! (sighs)
- [lights go off]
Ugh! Why'd I do that?!?
[overhead light still on, humming in background]
I turned off the wrong light!!
[lights go on, overhead goes off]

Miscellaneous

- He has a really ugly face.
- Whats the nude?
- I was totaly used!
- Thats beating a dead horse.
- I got so used to people not taking notes, I get upset when they do.
- You can remember me fondly as Mr. Nice Guy.
- Damn Robert, he's skiing and we've got to take this stupid test.
- Most definitely, probably...
- Brian! The only one... Special Brian.
- Don't fight with me. Go fight with my ancestors or something.
