User:Jon787

My name is Jon DeVree. I graduated with a degree in Computer Science from Michigan Tech in 2006. I was also one of the LUG server admins during my time at MTU.

My main field of interest is computer security and occassionally the LUG even convinces me to write an article on it. I run Debian Linux on my computers. I have also written some toys (http://tesla.homelinux.net/projects/nfsclient/) that aren't allowed on the MTU computer network.

Another hobby is being in an edit-war with aragirn about whether or not this picture should be in his profile on the wiki. In an empty jesture he protected his user page from edits... Silly aragirn, I used to have Wiki Ops.

Pages I 'Own'

- EERC Tree
- ISO Login
- IRC
- WEP
- Full list of pages I have edited (http://lug.mtu.edu/mediawiki/index.php?title=Special:Contributions&target=Jon787)

Servers I Have Owned

- ME Print Server
- Network Attached Storage - EMC Celerra
- ISO login
- Dark's
- LDAP
- AuxTech
- As I explained to my professor in Computer and Network Security, the entire CS Dept if I really wanted to. (They call it the Nightmare File System for a reason)

(Note that all of this was reported and fixed, so even if I told you what I found on these machines it wouldn't do you any good)
